

Danny Ambaou

Experienced Automation Developer with 7 years of experience in Web, Mobile, API automation testing. Skilled in building scalable frameworks and automation solutions using Selenium, Playwright, and Python/Java. Experienced in leveraging AI-powered development tools such as Anthropic's Claude to streamline development workflows, accelerate debugging, improve code quality, and optimize automation processes. Passionate about driving efficiency, reliability, and product quality through innovative, data-driven automation strategies.

Professional Experience

2022 - 2026

Automation Developer (Mobile & Web)

Belong tail (Start-up)

- Designed and developed a scalable end-to-end web automation framework from scratch using Python, Playwright and PyTest.
- Led the architecture and maintenance of mobile automation infrastructure supporting multiple environments and devices.
- Developed automated testing solutions for AI-driven products, improving test coverage and release quality.
- Integrated automated tests into CI/CD pipelines, reducing regression time and accelerating software delivery.
- Collaborated closely with developers, DevOps engineers, product managers and QA teams throughout the development lifecycle.
- Leveraged AI tools including Claude/ChatGPT/Gemini to accelerate automation development, improve debugging, and increase engineering productivity.
- Reduced production defects by approximately 80% through improved automation coverage and continuous testing.

QA & Automation Developer (Web)

Mgroup LTD

- Developed and maintained Selenium-based automation frameworks using Java.
- Built reusable automation components for Web and API testing.
- Automated business workflows, reducing manual testing effort.
- Retrieved and validated data directly from databases as part of automated testing.
- Collaborated with developers to investigate, reproduce and resolve software defects.
- Participated in Agile Scrum teams and contributed to continuous quality improvements.

Education

2014 - 2016

B.Sc. in Software Engineering

SCE – Sami Shamoon College of Engineering

Automation College by Gal Matalon (Self-Learning)

Python Track (2023): Playwright, Selenium, PyTest framework design, REST API (Requests/Postman), Allure.

Java Track (2018): Selenium WebDriver, OOP principles, TestNG, Allure

Languages

English

Hebrew

Technical Skills

Python	Selenium	CI/CD	Appium
Playwright	Java	Git	Jenkins
AI-Driven Test	Test Framework	Docker	SQL
Automation (Claude)	Development		
Requests	TestNG	Agile
